

SANTA BARBARA

YACHT CLUB

Ray C. Skeel, 1963

1885-1969

Ray was a powerboat man. A retired resident of Hope Ranch, he was willing and able to give his talents to the service of the club. Formerly a mechanical engineer, Ray was also an efficient administrator. He prepared the legal description of the present Yacht Club property when the Yacht Club was pursuing the building of its new clubhouse during the 1960s. It was considerable work and a significant contribution to the Yacht Club in making the present clubhouse possible.
