

SANTA BARBARA

YACHT CLUB

Dr. Douglas Warner, 1962

1904-1975

An expert in medical bacteriology, Doug headed up his Warner Clinical Laboratory for many years in Santa Barbara. An active sailor, he had a number of very fine boats including the schooner Stormalong, which he brought from the east coast, the Feather, a 33-foot sloop, and the Barbarena, a 40-foot sloop built on the east coast. When the City Council awarded the lease for the present clubhouse site, Dr. Warner's first duty as commodore that January was signing the lease now held by the Yacht Club.
